## Factsheet

In the warm waters of the azure Indian Ocean lies a dream tropical island – Mirihi Island Resort. Combining modern and traditional elements, the small paradise has been renovated and reopened in new shine in December 2014, still maintaining its Maldivian character and still ‘as unique as you’.

This emerald gem is just 350 meters long and 50 meters wide with palm-fringed beaches and sand as soft as powder, inviting you to leave your shoes behind for the duration of your stay. Only a few meters from the beach, our house reef – rich of fish life – awaits you with a great variety of species.

Mirihi is located about 85 kilometers to the southwest of the capital Male in South Ari Atoll, a 30 minutes picturesque seaplane flight away from the international airport. Due to the small size, Mirihi is counted as one of the smallest resort islands in Maldives.
