

Mirihi Island Resort

Reef Exploring on Dhoni

Every reef is unique for itself. You might find soft corals or hard corals, small fish or big fish, turtles, sharks or rays. Why not take the opportunity to extend your discoveries in the Indian Ocean.

Dear Guests,

Just a quick 20-minute boat ride on our Dhoni, one of the most pristine reefs of the South-Ari Atoll, called Hukurudhoo Faru, is found. Teeming with schooling fish of any color, turtles, big Napoleon wrasses, eagle rays and sharks it is the perfect place for any snorkeler to explore. Gently drift along the beautiful, shallow coral gardens and enjoy the ever-changing scenery around you. This place is well known for its cleaning stations for Manta Rays during the winter months. But there is always a chance to see these majestic giants gliding past you, any time of the year.
